

Missouri State Assistance for Housing Relief (SAFHR)
Tenant Household Area Median Income Range Look-up

Income Limits

To qualify for SAFHR assistance, tenant households must have a total household income less than or equal to 80% of the area median income for their county of residence and household size. Tenants applying for SAFHR assistance must use this document to determine they are income eligible for the SAFHR program and determine their income range. The SAFHR application requires tenants to determine and indicate whether they are in the 0-30% AMI range, 30-50% AMI range, or 50-80% AMI range. To find your income range, locate your county of residence and household size in the table below. If the estimated tenant household income is equal to or **below the listed amount for the income range**, that is the range to enter in the application. Example: My household in Boone County has 3 persons and our total household income is \$35,500. I would fall into the 30-50% AMI range for my county and household size because it is lower than the maximum of 30-50% and higher than the maximum of 0-30%.

NOTE: Income for all household members 18+ must be included in the income determination for the household.

Area Median Income Range	Income Range Look-up for Households

Harrison County	1																							

Missouri State Assistance for Housing Relief (SAFHR)
Tenant Household Area Median Income Range Look-up

Income Limits

To qualify for SAFHR assistance, tenant households must have a total household income less than or equal to 80% of the area median income for their county of residence and household size. Tenants applying for SAFHR assistance must use this document to determine they are income eligible for the SAFHR program and determine their income range. The SAFHR application requires tenants to determine and indicate whether they are in the 0-30% AMI range, 30-50% AMI range, or 50-80% AMI range. To find your income range, locate your county of residence and household size in the table below. If the estimated tenant household income is equal to or **below the listed amount for the income range**, that is the range to enter in the application. Example: My household in Boone County has 3 persons and our total household income is \$35,500. I would fall into the 30-50% AMI range for my county and household size because it is lower than the maximum of 30-50% and higher than the maximum of 0-30%.

NOTE: Income for all household members 18+ must be included in the income determination for the household.

Missouri State Assistance for Housing Relief (SAFHR)
Tenant Household Area Median Income Range Look-up

Income Limits

To qualify for SAFHR assistance, tenant households must have a total household income less than or equal to 80% of the area median income for their county of residence and household size. Tenants applying for SAFHR assistance must use this document to determine they are income eligible for the SAFHR program and determine their income range. The SAFHR application requires tenants to determine and indicate whether they are in the 0-30% AMI range, 30-50% AMI range, or 50-80% AMI range. To find your income range, locate your county of residence and household size in the table below. If the estimated tenant household income is equal to or **below the listed amount for the income range**, that is the range to enter in the application. Example: My household in Boone County has 3 persons and our total household income is \$35,500. I would fall into the 30-50% AMI range for my county and household size because it is lower than the maximum of 30-50% and higher than the maximum of 0-30%.

NOTE: Income for all household members 18+ must be included in the income determination for the household.
